03 Recent Projects

03.1 Venroy - <http://venroy.com.au/>

World's first Magento 2 enterprise website

Technologies – Magento2, Less, jQuery, Responsive web development, Web Optimization

03.2 Coffee Parts (Australia) - <http://www.coffeeparts.com.au/>

An E-commerce website to sell coffee related product parts

Technologies – Magento, Sass, Foundation, jQuery, Responsive web development, Web Optimization

03.3 Jax Tyres - <https://www.jaxyres.com.au/>

The website uses responsive design to ensure customers have a seamless experience with full access to the site features across desktop and mobile devices. For real-time information, the site is connected to their head office and store network via integration with their POS systems, customer database and ERP.

The new website, built on Magento Enterprise, gives the customer direct access to real-time prices, stock levels, appointment availability and promotional offers. The step by step process of matching a customer's car with the corresponding wheels and tyres mimics an in-store solution that already existed. Also Once a customer has selected their products, they can book in a time at their local JAX Tyres store by accessing the service schedule system.

Technologies – Magento, Sass, jQuery, Responsive web development

03.4 Bras N things – <http://www.brasnthings.com/>

The website we launched offers a far superior user experience, utilising a three break point responsive framework that works seamlessly across desktops, tablets and smartphones. Visually the site was completely overhauled. We implemented a sleek, sophisticated look that complements the updated Bras N Things branding while offering them the flexibility to easily update banners, promotions and lookbooks without compromising the responsive design.

Technologies – Magento, Sass, jQuery, Responsive web development

03.5 Active skin - <http://www.activeskin.com.au/>

Boasting seven break points, the new Active Skin website caters for just about every device and screen resolution with an adaptive interface design. Our UX team have reworked Magento's entire CSS framework to maximise performance and deliver a seamless user experience. The site is completely integrated with the ERP system and leverages Magento's rich merchandising suite to deliver personalised content to the different customer segments.

- MYOB Premier integration
- eParcel

Technologies – Magento, jQuery, Responsive web development

03.6 The Athlete's Foot - <http://www.theathletesfoot.com.au/>

The site some cool features that compliment the current in-store experience for The Athlete's Foot, ensuring customers get the right fit. This includes the development to support the integration of the sophisticated algorithm for Footwear Finder™ that recommends shoes based on a customer's individual footwear and lifestyle needs. Shoe Fitr™ 's scanning technology was also added to the site that offers consumers the opportunity to compare the fit of their current shoes to shoes available at The Athlete's Foot.

Technologies – Magento, jQuery, Responsive web development

03.7 The Party People Blog - <http://www.thepartypeople.com.au/wikiparty/>

Wordpress website for party people eCommerce users.

Technologies – Wordpress, jQuery, Responsive web development

03.8 Life Planner - <http://www.lifeplanner.lk>

Wordpress website that offers three language options

Technologies – Magento, jQuery, Responsive web development
